

Pownal Conservation Commission
Meeting minutes -- June 28, 2011

Attendees:

Ruth Hannan, Jeff Raymond, Derek Lovitch

Minutes:

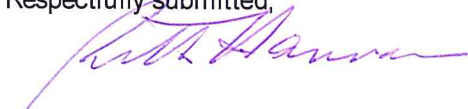

The minutes for the May 24th meeting were accepted.

We reviewed information on the Loring Lane property (Map 8, Lot 54), including a report from Selectman Fred Fauver and various avenues of effort. Opportunities for further research were discussed at length and will be picked up again in September.

Derek gave us an update on the Freeport Fields and Trails project. His impression is that the project will have a negligible impact on Harvey Brook. Changes were made to the design for drainage, which should alleviate impacts to the brook. Because of that, he didn't speak at the meeting as a representative of the Conservation Commission.

Please note that the Conservation Commission is not scheduled to meet during July or August. Our next scheduled meeting is September 27th. Members agreed to think about the future direction of this Commission.

Respectfully submitted,

Ruth Hannan
