Re: Wetland Delineation, Proposed 5.03 acre lot 796 Lawrence Road Pownal, ME

Dear Todd and Robert,

I have completed a delineation of wetlands on a proposed 5.03 acre parcel located at 796 Lawrence Road Pownal, ME. The wetland delineation was completed in accordance with the 1987 U.S. Army Corps of Engineers Wetland Delineation Manual and the Regional Supplement to the Corps of Engineers Wetland Delineation Manual for the Northcentral and Northeast Regions dated January 2012. These manuals require the presence of three parameters for a wetland to be present, wetland hydrology, hydrophytic vegetation, and hydric soils.

The wetlands I found on the parcel were flagged with yellow flagging. The flagging was labeled in an alphanumeric sequence. The wetland flags were located using gps equipment. The wetland data has been forwarded to Owen Haskell to be placed onto a plan. The wetlands found onsite are forested wetlands. The wetlands on the property do not meet the definition of wetlands of special significance as defined by Maine Department of Environmental Protection.

If you have any questions or require additional information, please contact me.

Sincerely,

Mark J. Hampton C.S.S., L.S.E.
