

# ROAD COMMISSIONERS REPORT

June 28, 2021

- **Equipment:** Truck 5 inspection sticker, Ford recall upgrade and front end checked, replaced fuel sending unit and repair wiring on excavator.
- **Mid Coast Truck Repair inspection:** Still waiting for the backhoe inspection.
- **Road Grading:** Grade roads and add gravel. The moldboard slide cylinder was replaced as well as the bottom wear plates on the moldboard.
- **Dust Control:** Durham, Loring Lane, Leighton, NY side of Chadsey and Upper Minot were graded and treated with Mag Chloride liquid, it is working well with great results.
- **Meet with Select Board member O' Brien:** Possible theft of Diesel fuel, new employee obtained his class B license, Andy and Phil worked with Matt to practice for his Class A license road test using North Yarmouth's trailer. And moving equipment around town.
- **Safety Works Training:** On June 28
- **Sweetser Road Bridge:** Submitted a report on the status of the bridge.
- **Pavement treatment for Outer Lawrence and part of Fickett Rds.:** Rutting was cut out and patched in with gravel until road is milled. Waiting on a start date.
- **Poland Range Rd. Multiplate Project:** No new information.
- **Update equipment maintenance spreadsheets, fuel, grease, and gravel logs.**
- **Truck 4 replacement:** Late Fall is estimated delivery time for chassis.
- **Purchase order for new loader:** A purchase order was placed for the loader.
- **Attended the annual Town Meeting on June 19.**
- **Durham Road:** Add three loads of ¾" crushed gravel graded, compacted and treated with Mag Chloride liquid.
- **Dig Safe Brown Road shoulders:** Harrisons to repair shoulder scour areas with rip rap as reclaim will not hold in place during heavy rains.
- **Libby Road damage at the Scott Dugas pit entrance:** Superior Crushing has caused more surface damage at the entrance to the Dugas pit as well as destroyed the Stop sign at the Elmwood intersection. I again contacted the resident engineer Clem Baxter for MDOT and Randy Illian the Region 1 Traffic Engineer. MDOT will provide a new sign. I will be billing Superior for the sign, post, and base stub as well as labor costs.
- **Paving Mallett Hall parking lot:** Selectperson O Brien, Mr. Blackstone, Russel Allen, and the road crew are to meet and design a plan. All States Material Group is working on a three-part paving budget quote.
- **Look at new culvert installation on Upper Minot Rd for Code Officer:** Needs a 15" culvert for a new driveway.
- **Replaced worn out pavement saw:** Had to borrow Durham's to finish the Outer Lawrence project.
- **Mulch Hay for erosion control:** Working with Steve Litchfield and Kathy Harlow on securing a yearly supply. We use between 3-400 bales a year.
- **Grader Training:** Our newest employee has started training on the excavator and Grader.
- **Equipment Tires:** Work with Good Year Tire to sort through all spare tires to determine safety and usability we will discard all others.
- **Preconstruction meeting with MDOT on Elmwood and Rte. 9 intersection July 8, 9:00 am**
