

# Town of Pownal

*Independent Unto Itself*  
Public Work

## Road Commissioners Report August 14, 2023

The Public works crew has been working to trim trees and brush around and over several roadways in town. We will hopefully have all the brush piles on the sides of the roads picked up this week. We also worked with a contractor to pave a section of Royal Road last week. Some of the other projects we have worked on in the last weeks include.

- Addressing beaver issues
- Grading and spreading gravel on gravel roads
- Cleaning storm debris and fixing washouts
- Trimming trees to help visibility on roadways
- Flushing plugged culverts
- Maintenance on equipment
- Work on a ditching project

In the coming weeks the crew plans to finishing ditching and culvert replacement on Dows Lane, shoulder a section of Royal Road. Fix shoulder damage throughout town. Work with the fire department to have all town Equipment sprayed and under coated for the up coming winter.
